Ce modelage vivifiant relance les flux d'hydratation de la peau et restaure son rebondi naturel. Les traits sont repulpés.
La peau s'éveille, s'assouplit et retrouve ses sensations

This Invigorating massage boosts the skin's moisture flow and restores its natural plumpness. The features are filled out.
The skin is stimulated and softened, as it regains all its sensations

We look forward to welcoming you to the Dior Institut.
